

REVA ENAD

Associate Programmer

Nasipit, Talamban, Cebu City, Cebu | +63 9666077454 | reva.enad@gmail.com

CAREER SUMMARY:

Experienced associate programmer with expertise in React.js and React TypeScript, dedicated to problem-solving and ensuring project success. Committed to ongoing learning and delivering optimal solutions. Proven track record of collaborating with teams to meet project goals effectively.

WORK EXPERIENCE:

Bluewind Asia Corporation

Associate Programmer | November, 2021 - Present

- Developed responsive web applications using HTML5, CSS3, and JavaScript frameworks/libraries such as React.js to ensure compatibility across diverse devices and screen sizes.
- Collaborated with cross-functional teams to maintain front-end web applications, ensuring a smooth and cohesive user experience for a real estate web platform. Contributed to Agile development by creating React programs aligned with client specifications and participating in sprint planning for effective cross-functional communication.
- Resolved front-end and back-end bugs and issues by conducting comprehensive debugging, troubleshooting, and root cause analysis, ensuring uninterrupted functionality of both the user interface and underlying application logic.
- Conducted code reviews and testing procedures to maintain high-quality code standards and optimal performance across a variety of browsers and devices.
- Documented project requirements, codebase, and technical solutions for future reference, facilitating knowledge sharing and collaboration among team members.

Fixel Co., Ltd.

Front-end Developer | June, 2023 - August 2023

- Developed reusable UI components and libraries to streamline development workflows, improve code maintainability, and promote design consistency across projects.
- Worked closely with designers to ensure accurate implementation of UI components, layouts, and visuals..
- Interacted with clients and stakeholders to understand project requirements, provide technical guidance, gather feedback, and ensure alignment between client expectations and project deliverables.
